

Jefferson City Parks & Recreation Department acquired this 2630 John Deere tractor in 1998 for **\$2,500**. It is a 1973 model with a 1977 motor: 85 P.T.O. horsepower. They had to replace some of the hydraulics and the clutch. These mechanical changes and the paint job back to its original trademark colors made the piece of machinery just like new. Mechanical work and paint job with labor only cost approx \$1,500. The current value of the tractor is estimated around **\$8,000+**. The Parks Department is still utilizing this fine piece of equipment today.

Santa Fe School in Alma Missouri had a need to expand their playground and received an estimate for the equipment pictured. The slides came from Missouri State Surplus and matched the other equipment perfectly. The slides were estimated at a cost of \$3,500 if the school was to acquire them with the playground set. Santa Fe was able to get the slides in November of 2001 from MOSASP at a cost of only \$450. The savings of \$3,050 is a prime example of how beneficial programs working together can be.

Saline County Courthouse in Marshall was able to furnish most of their office with property from MOSASP.

Look at the savings:

Chairs for	\$ 5.00 each
Typing table	\$ 5.00
Coat Rack	\$10.00
Wooden book case	\$15.00
Typewriter	\$25.00
Table	\$30.00
Desk	\$30.00 each
Safe	\$40.00
Lateral files	\$50.00 each
whole office setup	\$250.00

It would be next to impossible to buy one desk and a chair on the common market for the total charges at MOSASP for all the items above.
